# Give Value Life

In order to create a more livable world as a requirement of our social responsibility, we continue our work with an environmental management system based on the development of environmental awareness and the protection of natural resources.

We aim to make our planet healthier by supporting all our stakeholders, including our employees, customers, suppliers and the communities in which we do business.

Because for us, the environment is an important trust that we will pass on to future generations.

# 2025 > 2030 TARGETS

Zero Work Accident.  
To keep employee satisfaction and loyalty scores above 70% every year.

To ensure that critical suppliers and sub-producers undergo environmental audits by 2025.

To create safer working areas and to contribute to the improvement in the field of health and hygiene.

To have a 100% traceable supply chain by 2030.

To have a fully inclusive and responsible value chain by 2030.

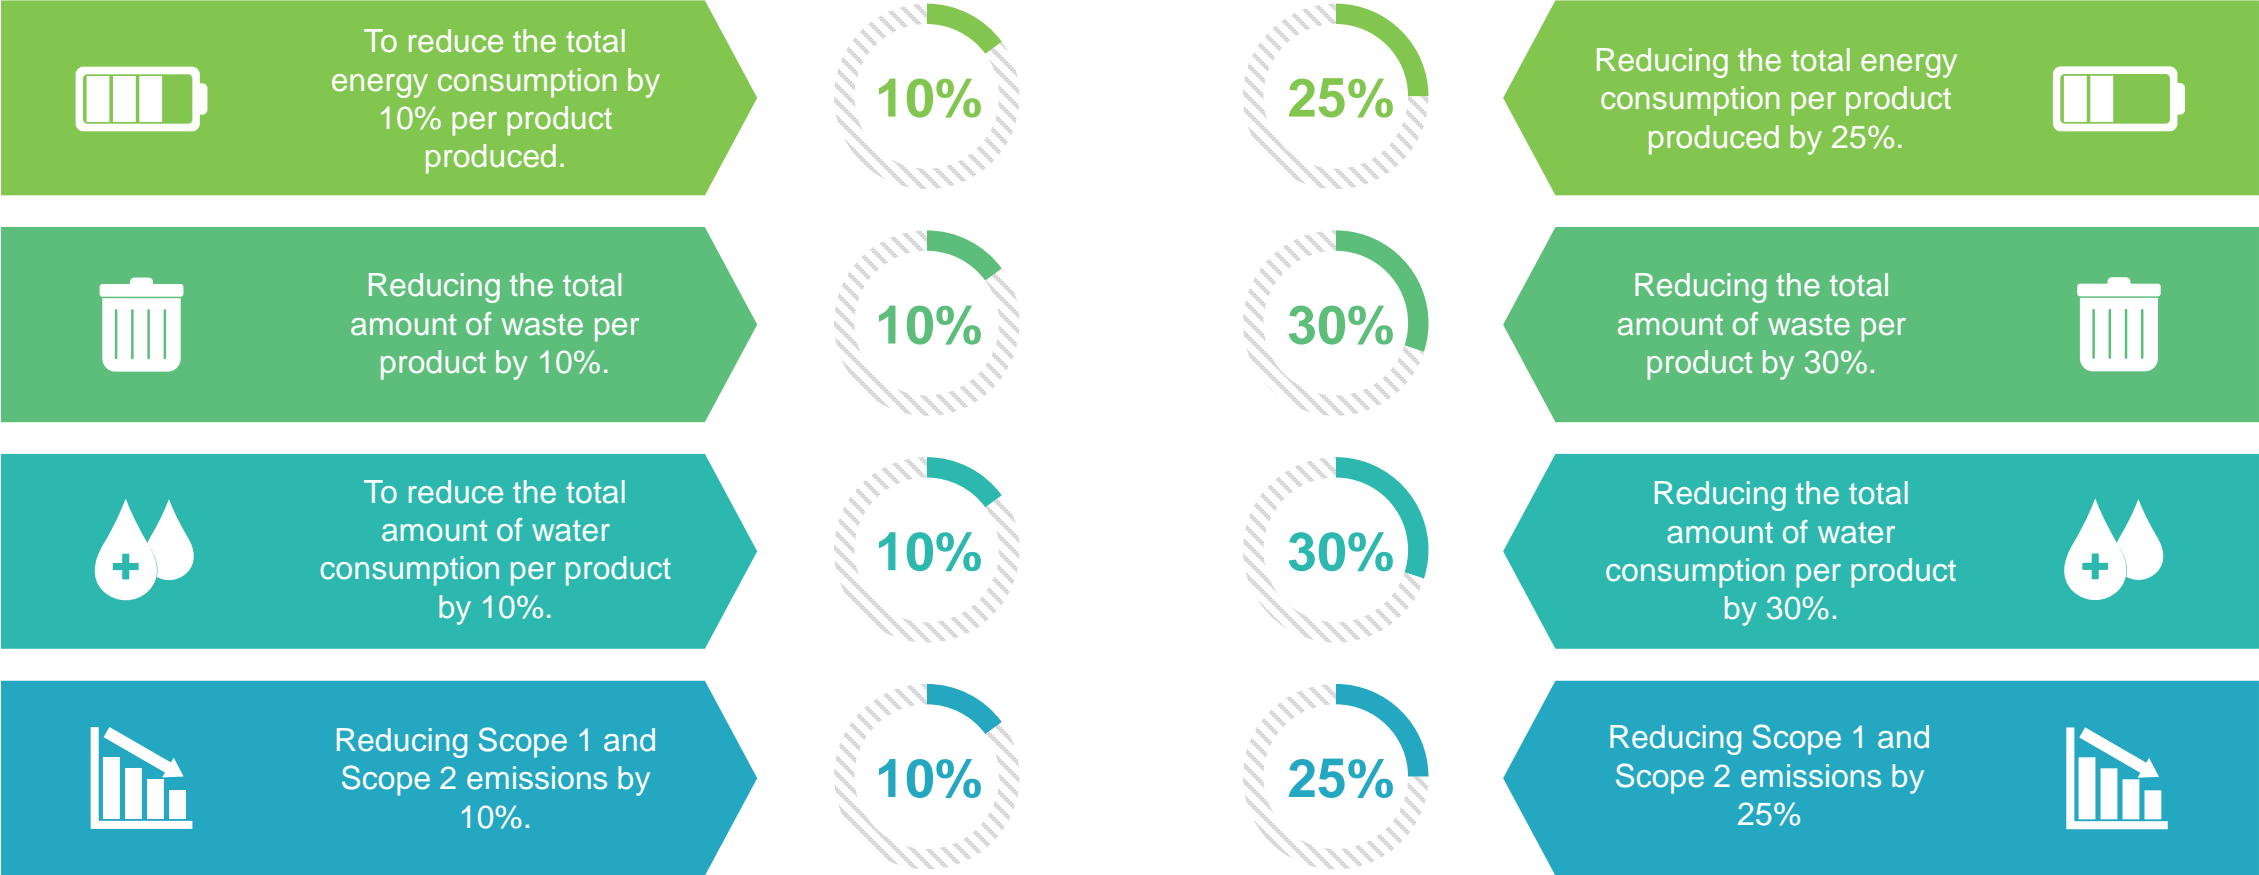

The SIFIR ATIK logo, featuring a circular icon with a recycling symbol and the text "SIFIR ATIK". To the right is a teal arrow-shaped text box containing the following text:

We are proud to share with you our "Zero Waste Document" approved by the Ministry of Environment, Urbanization and Climate Change, based on our system installation dated 18.11.2021 with our healthy working environment and environmentally sensitive production policy.

# 2025 > 2030 TARGETS

2022 ~ 2025

2025 ~ 2030

THE FUTURE  
IN  
YOUR HAND

THANK YOU
